

Port Kembla Coal Terminal (PKCT)

Expressions of Interest in Future Terminal Capacity

As part of the long term solution for access to coal export capacity in the Port of Port Kembla, PKCT is seeking Expressions of Interest for an allocation of capacity in the possible future upgrade of its coal export terminal.

Coal producers or potential producers that would be prepared to enter into long term ship or pay agreements for not less than 0.5Mtpa and are interested in participating in PKCT's nomination and allocation of capacity process should send an email to peter.green@pkct.com.au containing the company name, contact name and phone number.

A representative of PKCT will contact that person to ascertain bona fides and arrange the delivery of documentation related to the Expressions of Interest.
